

An American Company That Sets A World Standard 

## Did *you* know?

At the beginning of 2011 Professional's Choice teamed up with John Deere to bring equine enthusiasts a line of products for their horses. Since the collection of John Deere horse products has been on the market, the line has been featured in countless magazines and embraced by the equine community. As a result, Professional's Choice has expanded upon the line for 2012, offering new products that are already proving to be popular. Below, we are offering one of the first peeks at the new John Deere products by Professional's Choice. Take a look!

### John Deere Products:

**New Saddle Pads** – Nothing catches the eye quite like the traditional green and yellow John Deere colors. That's why Professional's Choice has released two of their most popular Air Ride™ Saddle Pads – The Comfort-Fit Alpine pattern and the Shiloh, in John Deere styles! Both pads feature Professional's Choice Air Ride™ cores, which absorb shock evenly throughout the pad and don't break down even after hard use. The Comfort-Fit is the newest pad in the Air Ride™ Collection, featuring a seamless Navajo blanket top that is contoured to fit the natural curve of your horse's back. Now, with these pads offered in the stylish John Deere patterns, your horse will look as good as they feel!

**Neck Cover** – The John Deere 600D Winter Blanket was a favorite among equestrians this past year. Due to popular demand, Professional's Choice has introduced a matching 600 denier neck cover to be paired with the blanket. This neck cover is ideal for milder winter climates and ensures that your horse stays dry and protected from the elements.

In addition to the products listed above, the John Deere collection is comprised of a wide array of items including bits, spurs, hay bags, bell boots and more. To view additional products in the John Deere Collection or to learn more, please click on the photo below.
