

Did *you* know?

Back Pain?

Comfort-Fit® Low Back Support

The Comfort-Fit® Low Back Support is a comfortable solution to the age-old problem of back pain. Completely adjustable, it provides enhanced comfort, compression and pain relief. Available in a variety of sizes and colors, the Comfort-Fit® Low Back Support has been the top choice of medical professionals for more than 20 years.

The secret to its popularity is the limestone-based neoprene, which offers a four-way stretch for full mobility whilst retaining body heat. This results in soothing moist heat therapy that reduces muscle tension. It is ideal for those who suffer from tight or sore backs due to extended periods of heavy lifting or sitting.

Knee Problems?

Miracle-Knee® Support

Say goodbye to knee pain with the Miracle-Knee® Support. Great for any athletic event or day to day support, it allows complete mobility at all levels of activity and reduces the effects of arthritis, damaged cartilage, sprains and strains. Flexible medial and lateral stays provide side-to-side support for ligament stability. Moist heat therapy promotes blood circulation and relaxes tight or sore muscles.

Made with neoprene, the unique wrap design makes application easy and gives a perfect fit at the thigh and calf. The irritating pinching, binding and rubbing common to other slip-on knee supports are virtually eliminated due to the open back design.
