Quality Training Tack

Our training equipment is made from the very best harness leather hides **HERMANN OAK LEATHER** has to offer. Working closely with their tanners, a special top dressing is applied that imparts a lasting richness to the grain. We then apply a unique combination of oils, waxes and good old elbow grease to the finished product to give an incredibly mellow feel that translates communication to and from the horse.

THE DARE® CRIBBING CONTROL COLLAR

Unique patented throat design keeps collar in place and controls even the worst cribbers

- ◆ Unique 3-dimensional patented throat piece design controls cribbing
- ◆ Stays in place with one 1¾" wide strap that provides more comfort for the horse
- ◆ Does not need to be tightened as much as other collars
- ◆ Can be positioned from either side of the horse with stainless steel roller buckles
- ◆ Fully reversible with no front or back
- ◆ Made of durable leather that is able to withstand years of use
- ◆ One size fits all. (Additional holes & half holes can be punched for optimum fit)
- ◆ Removable fleece cover

AD YoYo Headsetter

Harness leather with bronze hardware, bungee cord center, sliding nylon rope with snap ends. When the headsetter is adjusted to the desired head-set, the horse feels resistance when their head raises and will be rewarded when the head is returned to the desired level. Snaps directly to the bit.

AD8068HL

"The Black Rope"

Draw Rope Martingale

Al Dunning says "The Draw Rope allows you to draw a horse's head into position, then transfer the pull directly to the bit or snaffle with the use of knots in the rope. This feature limits the draw after achieving the desired head position. The neck strap keeps the rope in a secure position, so when the rope is slack, your horse cannot step or trip on it. The Draw Rope is easily adjusted with the strap between the legs."

AD8062HL
